

Dear Friend

I personally believe that this is an outrage. There are people that are power hungry and believe that they are the people that can act during this time of crisis. In my opinion, what the Mayor is doing is imposing laws that only benefits certain class. The working class on the other hand, is suffering greatly. The assured laws ticketing the working class for no good reason is an outrage. The rents, the mortgages, the budget cut in education among other things. I don't think that much has been done to alleviate the financial burden on the working class. The rich are getting richer and the middle class is vanishing. In short, Term limits should not be permitted. There are other people that may do a better job. Remember that Ruddy Gulliani wanted the same privilege and it was voted down. It is time to move on.
